

## COMBICON Plugs and Headers as a „high current“ (HC) Version for Currents up to 16 A, 5.0 or 5.08 mm Pitch

---

### Tuning for the MSTB classic

The proven COMBICON MSTB plug connector is now available as a "high current" (HC) version for currents up to 16 A. On top of the familiar MSTB features, a double steel spring guarantees extra safety for higher power transmission.

The HC family is available with 2 to 12 positions and in pitches of 5.0 and 5.08 mm.

Only the MSTB 2,5 HC headers provided are allowed to be used for carrying the higher current load of 16 A.

# MSTB 2,5 HC/...-ST(-5,08) 5.0 or 5.08 mm Pitch

The designation "HC" is printed in red to provide clear identification of "high current" plugs and headers.

Only the MSTB 2,5 HC headers provided are allowed to be used for carrying the higher current load of 16 A.

### Note:

Only actuate COMBICON plug connectors when under no load condition. If for operating reasons small loads must be switched, experimental values are available upon request.
