Who are we?

ASSMANN Electronics is a worldwide manufacturer of cable assemblies, connectors and heatsinks with over 30 years experience in quality manufacturing. Our head office is in Luedenscheid, Germany, and we have sales offices in Europe, Asia, and the United States.

What can we do for you?

We at ASSMANN pride ourselves on quality products, competitive pricing and on-time delivery. Through our distribution partners and a technically trained sales staff, we can assist you in all aspects of product design and production. ASSMANN is a UL certified manufacturer for cable assemblies and can provide FCC approved products.

***Product Design Support /
Custom Prototypes ...***

Apart from our full line of standard cable assemblies, ASSMANN offers custom cable assemblies for new or current projects. We can provide drawings for custom prototypes within 3 days and samples in less than 10 days.

***Inventory Management &
Control ...***

ASSMANN will stock additional inventory to meet your needs and support production cycles.

Offshore Manufacturing

We control the quality at our manufacturing facilities in Europe and Far East. All products are subject to continual quality control; ASSMANN Electronics is ISO 9002 certified and only works with certified contract manufacturers. Allow our volume purchasing of materials to pass on savings to you - the customer!

Reliability & Dependability

ASSMANN Electronics has been focused on connectivity products for over 30 years. We continue to grow and have become one of the largest companies of our type in Europe.

The ASSMANN Advantage ...

Depending on the complexity of your requirements and time constraints, ASSMANN sales representatives can provide a comprehensive quotation via e-mail or fax. Simply provide us with your specifications, drawings, or a sample and we will take care of the rest. Should you require additional design assistance we will be happy to help you.

Cable assemblies

Neben Standardkabeln fertigen wir Kabelkonfektionen speziell nach Kundenspezifikation.

Ein äußerst flexibles und kostengünstiges System von automatischer und manueller Fertigung bietet Ihnen

- wettbewerbsfähige Preise
- hohe Qualität mit 100% elektrischer Prüfung und Zertifizierung auf Wunsch
- Bedruckung von Kabel und Steckern

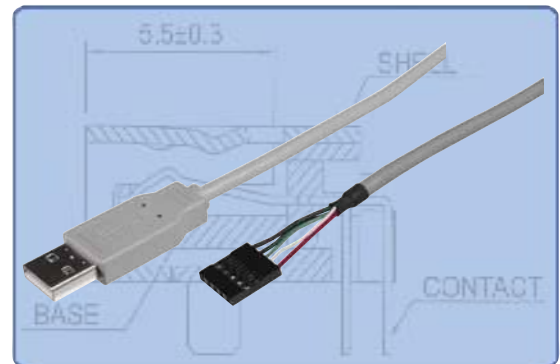

Senden Sie uns Ihre Anfrage.

Apart from standard cables, special cables can be assembled upon acc. to customers specification.

An extremely flexible and cost-effective system of automatic and manual production offers you

- competitive pricing
- high quality with 100% electrical testing and certification on request
- printing on cables and connectors

Neben Standardkabeln fertigen wir Kabelkonfektionen speziell nach Kundenwunsch. Im Bereich Flachbandkabel bieten wir Ihnen Konfektionen mit beliebigen Polzahlen und Längen mit entsprechenden Steckverbindern an.

Ein äußerst flexibles und kostengünstiges System von automatischer und manueller Fertigung bietet Ihnen

- wettbewerbsfähige Preise
- hohe Qualität mit 100% elektrischer Prüfung und Zertifizierung auf Wunsch
- Bedruckung von Kabel und Steckern

Senden Sie uns Ihre Anfrage.

Apart from standard cables, special cables can be assembled upon request. For flatcables we offer assemblies in any length with any number of conductors and with all kinds of connectors.

An extremely flexible and cost-effective system of automatic and manual production offers you

- competitive pricing
- high quality with 100% electrical testing and certification on request
- printing on cables and connectors

Adapter und Kabelkonfektionen auf Anfrage

Adaptors and Cable assemblies on request

Die Elektromagnetische Verträglichkeit (EMV) ist zu einem ernstzunehmenden Problem für elektrische Anlagen geworden, so daß man neue Wege finden muß, dem negativen Einfluß elektromagnetischer Wellen zu begegnen.

Dies kann durch Integration einer Ferritplatte oder eines Kondensators erreicht werden. Daher kann der herkömmliche D-SUB für die Leiterplattenmontage ohne Layout-Änderungen durch den Filter D-SUB ersetzt werden.

Anwendungen:

- Personalcomputer, Computerprodukte, Produkte und Peripherie-/Bedieneinheiten.
- Rauschunterdrückung auf Datenleitungen in Datenkommunikationseinheiten und anderen Digital-schaltungen

ASSMANN bietet deshalb ein großes Spektrum an gefilterten D-SUB's an, sowohl mit Kondensator als auch mit Ferritplatte.

Fragen Sie nach unserem Sortiment.

Electromagnetic wave interference for electric equipments has become a serious problem recently. The result is that we must find new ways to deal with the negative influence of electromagnetic waves.

By integrating a ferrite plate or capacitors, so the standard D-SUB for PCB-mounting can be substituted without changing the layout by a filtered D-SUB.

Applications

- Personal computer, computer-applied products and peripheral/terminal equipment
- countermeasures against normal-mode along data lines in data communication terminals and digital equipment

ASSMANN offers a big range of filtered D-SUB's, as well as capacitor and ferrite core.

Fiber Optic Simplex and Duplex Indoor Cable for Direct Connector Assembly

The simplex and duplex cable can be used for direct connector assembly. Because of its small diameter and high flexibility, it is most suitable as patch cable in distribution plants and for connection of terminal devices. Delivered cut-to-length according to customer specifications, minimum 100 meters.

- I-VH... (simplex) and I-VH 2x1 (duplex), halogen-free.
- Structure: The cable core is available as compact fiber with non-metal strain relief elements (Aramid), the cable sheathing consists of halogen-free, flame-resistant material, sheathing color yellow.
- The cable is also available in other sheathing colors and completely assembled.

Fiber Optic Mini-Breakout Cable

Metal-free cable for direct connector assembly. Because of its small diameter, it is most suitable for cabling of workstations. Delivered cut-to-length according to customer specifications, minimum 100 meters.

- I-VH n..., halogen-free.
- Structure: The cable core is available as compact fiber and full fiber, with non-metallic strain relief elements (Aramid), the cable sheathing consists of halogen-free, flame-resistant material, sheathing color yellow, **also available with 2, 6, 8 or 12 fibers.**
- The cable is also available in other sheathing colors and completely assembled.

| AL-6MBO4-100 | Mini-Breakout, 62,5 / 125µm, 4 Fibers |

Fiber Optic Breakout Cable

Designed for direct connector assembly. Because of its robust construction, it is very suitable for installation in the rising and horizontal areas of an in-house cable network. Delivered cut-to-length according to customer specifications, minimum 100 meters.

- I-VHH n..., halogen-free.
- Structure: The cable core is available as compact fiber and full fiber, with non-metallic strain relief elements (Aramid), flame-resistant single sheathing, color yellow, outer cable sheathing of halogen-free, flame-resistant material, color yellow, **also available with 2, 6, 10, 16, 20 and 24 fibers.**
- The cable is also available in other sheathing colors and completely assembled.

Fiber Optic Outdoor Cable with Rodent Protection

Lightweight, metal-free cable with small outer diameter. To be installed in pipes, cable channels or directly into the earth. Delivered cut-to-length according to customer specifications.

- A-DQ(ZN)B2Y.
- Structure: Central bundled fiber with max. 24 fibers, non-metallic strain relief elements and rodent protection with additional layer of glass elements, cable sheathing of PE material, **also available with 2, 6, 10, 16, 20, 24 and 48 fibers.**
- The cable is also available in other sheathing colors and completely assembled.

ST Fiber Optic Cable System with Feeding Assistance, Breakout Cable, Halogen-Free

- ST to ST connectors, breakout cable, halogen-free, I-V(ZN)H-H.
- Primary coated fibers in compact hollow core.
- Kevlar coating for strain relief, two halogen-free outer sheathings.
- Tensile force 300N, attenuation values for 50 and 62.5 μm at 1300nm: max. 1.3 dB/km.
- **All other standard connectors and lengths available, assembly of 2 to 96 connectors possible.**

Fiber Optic Tools

Fiber Optic Cable Stripper, 50µm

Optimal for patch and breakout cable.

AL-KS Fiber Optic Cable Stripper

Miller Stripper

For pigtail fiber or secondary coating, suitable for single mode (9/125µm) and multimode (50 + 62.5/125µm).

AL-MS Miller Stripper

T&B Stripper

Secondary and primary coating in one step, suitable for single mode (9/125µm) and multimode (50µm + 62.5/125µm).

AL-TB T&B Cable Stripper

Siemens Stripper, 62.5µm

For stripping down to the glass.

AL-SIE Siemens Stripper

Fiber Optic Crimping Tool

For crimping ST or SC connectors.

A-SK ST For ST Connectors, Sheath Ø 0.042 - 5.41 mm
 A-SK SC For SC Connectors, Sheath Ø 0.042 - 4.95 mm

Ceramic Cutter

Optimal for Kevlar, very long life time.

AL-KSCH Ceramic Cutter

Network Tool Kit

The tool kit consists of the following tools:

- Crimping tool for coax and fiber optic connectors with various inserts.
- Four different crimp inserts.
- A-SK 25 = stripping tool for coaxial cable
- A-SK CC = cable cutter
- Screw driver for changing the crimp inserts, all together in a practical plastic case

A-SK KIT2 Network Tool Kit, Arranged in Plastic Case

Tool Kit for Coax and Fiber Optic

The tool kit consists of the following tools:

- A-SK 10, crimping tool for Coax connectors, suitable for RG 6, 59, 62, 140, 210, Belden 8279, 55, 58, 141, 142, 223, 303, 400, Fiber Optic
- A-SK 20, Coax cable stripper with 3 knives, for cable diameter from 3,5mm up to 7,4 mm
- A-SK CC, cable cutter for Coax cable, for cable diameter up to 10,5mm
- all articles together in a practical plastic case

О компании

ООО "ТрейдЭлектроникс" - это оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов. Реализуемая нашей компанией продукция насчитывает более полумиллиона наименований.

Благодаря этому наша компания предлагает к поставке практически не ограниченный ассортимент компонентов как оптовыми, мелкооптовыми партиями, так и в розницу.

Наличие собственной эффективной системы логистики обеспечивает надежную поставку продукции по конкурентным ценам в точно указанные сроки.

Срок поставки со стоков в **Европе и Америке – от 3 до 14 дней.**

Срок поставки из **Азии – от 10 дней.**

Благодаря развитой сети поставщиков, помогаем в поиске и приобретении экзотичных или снятых с производства компонентов.

Предоставляем спец цены на элементы для создания инженерных сэмплов.

Упорный труд, качественный результат дают нам право быть уверенными в себе и надежными для наших клиентов.

Наша компания это:

- Гарантия качества поставляемой продукции
- Широкий ассортимент
- Минимальные сроки поставок
- Техническая поддержка
- Подбор комплектации
- Индивидуальный подход
- Гибкое ценообразование

Наша организация особенно сильна в поставках модулей, микросхем, пассивных компонентов, ксайленсах (XC), EPF, EPM и силовой электроники.

Большой выбор предлагаемой продукции, различные виды оплаты и доставки, позволят Вам сэкономить время и получить максимум выгоды от сотрудничества с нами!

Перечень производителей, продукцию которых мы поставляем на российский рынок

С удовольствием будем прорабатывать для Вас поставки всех необходимых компонентов по текущим запросам для скорейшего выявления групп элементов, по которым сотрудничество именно с нашей компанией будет для Вас максимально выгодным!

С уважением,

Менеджер отдела продаж ООО
